Forecast for Wednesday 22 Mar 2023

Weather: A largely sunny start but cloud bubbling up with occasionally showers around midday some heavy later with a low risk of thunderstorms. Cloud increases again through the evening with a narrow band of occasionally heavy showery rain spreading east, then clearing towards midnight.

Chance of cloud-free hill tops above 600m: Around 90% at dawn becoming 70% by midday, chances falling considerably through the evening.

Low cloud and visibility: Only small amounts of cloud expected below the summits at first then occasional cloud above 600-750m developing by midday, with periods or persistent cloud above 450-600m spreading east during the evening. Away from cloud visibility very good falling to several kilometres in rain or showers.
